

# Draw procedures: Olympic Football Tournaments Rio 2016

## I- Men's tournament:

### SLOT ALLOCATION:

The slot allocations per confederation have been decided by the Organising Committee for the Olympic Football Tournaments as follows:

CONFEDERATION	NUMBER OF TEAMS	QUALIFIED TEAMS
AFC	3	Iraq, Japan, Korea Republic
CAF	3	Algeria, Nigeria, South Africa
CONCACAF	2	Honduras, Mexico
CONMEBOL	2	Argentina, Brazil
OFC	1	Fiji
UEFA	4	Denmark, Germany, Portugal, Sweden
PLAY-OFF	1	Colombia

### ALLOCATION TO POTS:

The 16 qualified teams are allocated to four pots of four teams each, based on a ranking built according to past sporting performance.

The ranking is based on the total points obtained in the last five Olympic Football Tournaments (3 points for a win, 1 point for a draw, 0 for a loss). The ranking used to build the pots is thus based on the points obtained at the 2012, 2008, 2004, 2000 and 1996 Olympics.

To enable the ranking to accurately reflect current form, the greatest importance is given to results from the most recent Olympics. To a lesser degree, attention is also paid to results from previous years. The system uses five cycles as the points earned in one Olympics decline linearly within the past five cycles:

- Year 2012: 100% value of total points
- Year 2008: 80% value of total points
- Year 2004: 60% value of total points
- Year 2000: 40% value of total points
- Year 1996: 20% value of total points

In addition, five bonus points are added to each of the confederation champions that won a qualifying tournament.

Based on the above ranking, the three top teams and the hosts are allocated to Pot 1, the next four teams to Pot 2 and so on.

The pot allocation for the Olympic Football Tournaments Rio 2016 men's draw is as follows:

Pot 1	Pot 2	Pot 3	Pot 4
Brazil	Nigeria	Sweden	Algeria
Argentina	Korea Rep.	Fiji	Colombia
Mexico	Honduras	Portugal	Denmark
Japan	Iraq	South Africa	Germany

### **DRAW MECHANICS:**

- The four pots representing the teams are labelled Pots 1 to 4.
- The four pots representing the venues are labelled Groups A to D. In each pot, there are four balls which contain the position numbers 1, 2, 3 and 4 of each respective group.
- The draw starts with Pot 1 and ends with Pot 4. Each pot is completely emptied before moving on to the next pot.
- A ball from a team pot will be drawn, followed by a ball from one of the groups, thus determining the position in which the respective team will play.

### **DRAW CONSTRAINTS:**

- 1- In Pot 1, Brazil are in a red ball and have been pre-assigned to position A1 as hosts.
- 2- FIFA's general principle is to ensure that no group has more than one team from the same confederation drawn into it.
